CPR ♥ AED FIRST-AID

BE THE DIFFERENCE
KNOW HOW TO
HELP
SAVE A LIFE

"**Sudden cardiac arrest** occurs without warning or within minutes after symptoms appear. More than 350,000 cardiac arrests occur outside of the hospital each year. The location of the out of hospital cardiac arrest (OHCA) most often occurs in homes or residences, (73.4%) followed by public settings (16.3%), and nursing homes (10.3%). If performed immediately, CPR can **double or triple** the chance of survival from an OHCA. The 2023 Heart Disease and Stroke Statistics state that among the over 356,000 OHCA that occurred, 40.2% receive bystander CPR (American Heart Association).

♥ HEALTHCARE PROVIDER (BLS)

This course teaches CPR skills for victims of all ages (including ventilation with a protective barrier device, the use of an AED, the use of a bag valve mask, and foreign body airway obstruction.) This class is designed for healthcare professionals, EMT students, nursing school students, childcare and daycare facility employees and DCFS participants, but anyone can sign-up for the class. This class meets the requirements set by the American Heart Association, and is required to maintain most professional medical licenses.

♥ HEARTSAVER/AED

The Heartsaver/AED course is designed to teach CPR, the use of an Automatic External Defibrillator (AED), and what to do in the event of a choking emergency for victims of all ages. This class is highly recommended for new parents, babysitters and anyone that wishes to help in the event of an emergency.

♥ FIRST AID

This course will educate the rescuer on three core modules:

- General Principles of First Aid
- Medical Emergencies
- Injury Emergencies

These modules teach the public how to manage illnesses and injuries in the first critical minutes before professional help arrives.

♥ CPR IN SPANISH

In an effort to make CPR training available for everyone, the Hanover Park Fire Department is able to teach Heartsaver/AED in Spanish. All materials are also available in Spanish.

Contact FF/PM Rosa Gonzalez for more information.
