Re: Village of Hanover Park – NPDES Phase II Storm Water Program for Municipal
Separate Storm Sewer Systems – Waiver Approval –ILR4000347
Bureau ID: W0314480002

Dear Applicant:

The Illinois Environmental Protection Agency has reviewed your letter requesting a waiver for the Village of Hanover Park NPDES Municipal Separate Storm Sewer System permit.

The Village of Hanover Park boundaries are coterminous with DuPage County.

This notice of no NPDES permit required constitutes final action by this Agency on this submission in accordance with the Illinois Environmental Protection Act.

Please note that you must submit a new waiver request 180 days prior to the expiration of the current ILR40 permit. The submittal is due on or before: September 1, 2020

Should you have any questions or comments regarding the above, please contact the Permit Section at 217/782-0610 or at the above address.

Very truly yours,

A handwritten signature in cursive script that reads "Amy L. Dragovich".

The items listed below explain the criteria that must be met in order to be considered:

- a. If your community serves a population of less than 1,000 the following criteria must be met:
 - i. The MS4 system is not contributing substantially to the pollutant loadings of a physically interconnected MS4 that is regulated by the NPDES storm water program.
 - ii. If the MS4 system, requesting a waiver, discharges any pollutant(s) that have been identified as a cause of impairment of any water body to which you discharge and it has been determined that storm water controls are not needed based on waste load allocations that are part of an EPA approved or established "total maximum daily load" (TMDL) that addresses the pollutant(s) of concern.
- b. If your community serves a population greater than 1,000 but less than 10,000 the following criteria must be met:
 - i. The permitting agency has evaluated all waters of the U.S., including small streams, tributaries, lakes, and ponds, that receive a discharge from your MS4.
 - ii. It has been determined that storm water controls are not needed based on waste load allocations that are part of an EPA approved or established TMDL that addresses the pollutant(s) of concern or, if a TMDL has not been developed or approved, an equivalent analysis that determines sources and allocations for the pollutant(s) of concern:

8. List the names of known receiving waters for the MS4: (use additional sheets if necessary)
